F C

Dirt made my lunch

VERSES:

Am C
Dirt is a word we often use
Am C
When we talk about the earth beneath our shoes
Am C
It's a place where plants can sink their toes
F G
And in a little while, a garden grows ...

(CHORUS)

A farmer's plow will tickle the ground
You know the earth has laughed when wheat is found
The grain is taken and the flour is ground
for makin' a sandwich to munch on down

(CHORUS)

A stubby green beard grows upon the land,
Out of the soil, the grass will stand
But under the hoof, it must bow
For makin' milk by way of a cow (mooo!)

(CHORUS)
