

The Water Cycle Song

By RT Hawke, and friends. Written at a songwriting workshop at the 2000 AEOE Spring Conference.
Sung to the tune of "She'll be Comin' 'Round the Mountain."

For motions, divide the students into three groups and when you sing H_2O , the two groups on the sides hold up two arms for the H's, and the middle group holds up arms in a circle for the "O," or do "The Wave."

C G
Oh I am the Water Cycle – H_2O !
G C
Oh I am the Water Cycle – H_2O !
F
Oh I rise up from the ocean
C
I am constantly in motion
G (G₇) C
And all life depends on me to live and grow!

Oh I am the Water Cycle – H_2O !
Oh I am the Water Cycle – H_2O !
In the air I group together
Then I make all kinds of weather...
And all life depends on me to live and grow!

Oh I am the Water Cycle – H_2O !
Oh I am the Water Cycle – H_2O !
And no matter where you go
I'll be there as rain or snow...
And all life depends on me to live and grow!

Oh I am the Water Cycle – H_2O !
Oh I am the Water Cycle – H_2O !
From creeks down to the river
to the ocean I deliver...
And all life depends on me to live and grow!

Oh I am the Water Cycle – H_2O !
Oh I am the Water Cycle – H_2O !
Evaporation, condensation,
precipitation, transportation...
And all life depends on me to live and grow!
